

Maridive Offshore Projects

(S.A.E.)

Repair of 6", 12" and 18" sea-lines by mechanical connectors

Work Description:

- Cold cutting and removing of old PLIDCO flanges on 6", 12" and 18" pipelines at Belayim Oil Field.
- Installing of two Hydrotech mechanical connectors at each pipe line.
- Accurate measurements (length and angle) to be taken between two mechanical connector flanges at each pipe line.
- Fabrication of spool pieces for each pipe line.
- Supporting spools and mechanical connectors by means of sand bags.
